EDUCATION

Mar. 2021 ~ Present — **Kyung Hee University**, Department of Electronic Engineering, Yongin, Korea

Thesis: Sim-to-Real Teleoperation-Based Imitation Learning Pipeline for Dual-Arm-Manipulation
Advisor: Tae-Seong Kim

Bachelor Student
GPA: 4.26 / 4.5

RESEARCH INTERESTS

- Sim-to-Real
- Robot control
- Imitation learning
- Reinforcement learning control
- Robot manipulator

RESEARCH EXPERIENCES

- Research Student at Radiology, Kyung Hee University Hospital at Gangdong, Korea (Dec. 2023 ~ May. 2025) / 임상 환자 데이터 전처리 및 논문 Figure 제작
- Research Student at Electrical and Computer Engineering, Seoul National University, Korea (Jun. 2025 ~ Aug. 2025) / Undergraduate Research Intern
- Research Student at Biomedical Engineering, Kyung Hee University , Korea (Sep. 2025 ~ Present) / Development of robot imitation learning pipeline and BC benchmark evaluation using OMX

  Diffusion Policy: applied standard PyTorch compilation and CUDA Graphs.
  Measured model latency and verified ROS 2 command order and live feedback.

AWARDS AND HONORS

- 2024 성균관대 컨소시엄 창의적 종합설계 경진대회 은상, 성균관대학교, Korea (Nov. 2024)
- 한국공학교육학회장상, 한국공학교육학회, Korea (Nov. 2024)
- 입시장학(한승무장학), 경희대학교, Korea (Mar. 2021 ~ Sep. 2024)

TRAINING & CERTIFICATIONS

- H-Mobility Class, Robotics Track 현대자동차그룹 H-모빌리티 클래스 로보틱스 과정 수료
- ADsP, Advanced Data Analytics Semi-Professional
